

## Databases Laboratory Work Nr.4

---

**Group:**FAF-192

**Student:** Puscas Dumitru

**Title:** Transact-SQL Instruction

**Prerequisites:** computer, connection to the network, book: Microsoft SQL Server 2017 by Vitalie Cotelea and Marian Cotelea, Soft: Microsoft SQL Management Server.

**Tasks:**

2,4,5,  
13,17,18,  
26,27,29

**Implementation:**

2. Sa se obtina lista disciplinelor in ordine descrescatoare a numarului de ore.

SQLQuery2.sql - D...F3MN\dimasio (58))\* X Object Explorer Details

SELECT Disciplina FROM discipline ORDER BY Nr\_ore\_plan\_disciplina DESC;

100 %

Results Messages

	Disciplina
1	Practica de licenta
2	Practica de productie
3	Cercetari operationale
4	Structuri de date si algoritmi
5	Limbaje evaluate de programare (Java,.NET)
6	Programarea aplicatiilor Windows
7	Matematica discreta
8	Asamblare si depanare PC
9	Baze de date
10	Sisteme de operare
11	Programarea calculatoarelor
12	Proiectarea sistemelor informatice
13	Programe aplicative
14	Informatica aplicata
15	Sisteme de calcul
16	Programarea WEB
17	Modelarea sistemelor
18	Rețele informatice
19	Tehnologii de procesare a informatiei
20	Programarea declarativa
21	Integrare infomationala europeana

4. Afisati care dintre discipline au denumirea formata din mai mult de 20 de caractere?

SQLQuery2.sql - D...F3MN\dimasio (58))\* X Object Explorer Details

```
SELECT Disciplina FROM discipline WHERE len(Disciplina) > 20;
```

**Conclusion:** In this work I studied how to use the SQL Select Transact Instruction to perform different operations of diverse complexities and apply them effectively whenever needed.
