

Databases Laboratory Work Nr.3

Puscas Dumitru

FAF – 192

Title: CREATION AND MODIFICATION OF TABLES IN SQL SERVER MANAGEMENT STUDIO

Prerequisites:

- PC with MySQL tools installed
- Lab book with steps

Tasks:

- Which of the numbers below can be inserted in field DECIMAL(4,1)?
B)116,2
- Col1 is of type INT and Col2 is of type DECIMAL(2,1)

Tabel	Col1	Col2	Col3
	1	1.0	
	2	1.0	

Of which type must be Col3 to hold the result for Col1*Col2?

DECIMAL(2,1)

- Create a database “**universitatea**” with 2 tables: grupe and discipline, complete the tables afterwards.

	3	TI171	Tehnologii Infor...	Informatica si Cibernetica

PK	NULL	NULL	NULL

Conclusions:

Throughout this laboratory work I learnt the way to add new tables to a certain data base and adjust them properly. Moreover, I got acquainted with the available SQL data types and special data types.
